## Personal Projects

There were few projects that we had attempted to develop

### **Schools Application management** (<https://github.com/ukanirudh/schrolegrp>)

Web application to manage application for international schools. Had a Applicant/Lecturer login respectively. Where applicant can choose from the options to apply for a particular international school. Where as for a Lecturer, he/she had to first apply and then wait until their background verification has been completed

### **Vendor App** (<https://github.com/ukanirudh/vendorApp>)

Clients can place a tender/requirement for particular set of commodities and vendor places a bid and the best bidder cuts the deal.

### **EcoVolunteers** (<http://ecovolunteersindia.org.in/>)

Planning to go live soon with the above website. We are a group of NGO working towards conservation of wildlife
